SAMPLE BASELINE SURVEY AND ASSESSMENT

August 2019

Sample Baseline Survey and Assessment

Introduction

As part of a Monitoring and Evaluation plan, ideal implementation of the Starting With Women approach will include conducting a baseline survey with both project participants and a control group. All project participants should be interviewed, and a robust sampling method should be used to ensure validity of the control group. Below is a sample survey, although questions should be tailored to the particular project context.

Informed Consent

Instructions for interviewer:

Before beginning the interview, it is necessary to introduce the prospective respondent to the survey and obtain their consent to participate. Make it clear to them that their participation in the survey is voluntary.

Please read the following statement in the language of the interview:

Consent Form

Thank you for the opportunity to speak with you. My name is _____. I am working with (name of organization)_____.

We are conducting a survey aimed at understanding land and resource tenure in your area. This information will help us understand the current state of land rights and resource rights in this area, and will be used to improve scholarly and practical knowledge.

Your participation in this interview is entirely voluntary. During the interview, you can choose to stop at any time or to skip any questions you do not want to answer. We will make a record of your responses on the questionnaire but you and the responses you give will appear anonymously, meaning we will not use your real name when we use the information. Your answers will be completely confidential; we will not share information that identifies you with anyone.

The questions we have will take approximately 45 minutes to 1.5 hours to complete. After we collect all the information we will use the data to make a report about land and resource rights in this area.

Do you have any questions about the study or what I have said?

Note to interviewer: If the respondent has any question proceed as follows: record the question, don't attempt to answer the question (especially if it is of a technical nature), and bring the question to the attention of your field supervisor. If the respondent doesn't have any questions then say: If in the future you have any questions regarding study and the interview, or concerns or complaints we encourage you to contact us at (phone number)_____.

We will leave one copy of this form for you so that you will have record of this contact information and about the study.

Please ask the participant if they consent to the study (check one box):

Participant:	<input type="checkbox"/> YES	<input type="checkbox"/> NO	Witness:	<input type="checkbox"/> YES	NO <input type="checkbox"/>
--------------	------------------------------	-----------------------------	----------	------------------------------	-----------------------------

I _____, the enumerator responsible for the interview taking place on _____ certify that I have read the above statement to the participant and they have consented to the interview. I pledge to conduct this interview as indicated on instructions and inform my supervisor of any problems encountered during the interview process.
